Purba Bardhaman, West Bengal, India | +91-7584032775 | ranadip.dasmahata@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

MCA candidate with a focused interest in full stack web development, combining hands-on project experience in PHP, MySQL, JavaScript, HTML, and CSS with working knowledge of Python, RDBMS concepts, and version control using Git and GitHub. Independently designed and built a complete web application covering relational database design, secure authentication, and an administrative dashboard. Brings strong analytical thinking, client communication, and deadline management skills developed through professional experience in market research and international client support. Certified in PHP development, with a growing foundation in software engineering fundamentals through ongoing MCA coursework.

TECHNICAL SKILLS

Programming Languages: PHP, Python, JavaScript

Web Technologies: HTML, CSS

Databases: MySQL, RDBMS (Relational Database Management Systems)

Concepts: Database Management, Software Development Life Cycle (SDLC), Responsive Web Design, Authentication & Session Management

Developer Tools: Git, GitHub, VS Code

PROJECTS

Travel Management System — "Let's Travel Ltd"

Mar 2023 – May 2023

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Designed and built a full-stack travel booking platform independently, covering database schema, backend logic, and responsive frontend UI.
- Implemented secure user login and session handling to protect customer accounts and booking data.
- Developed a functional admin dashboard enabling management of travel packages, bookings, and customer records.
- Structured a relational MySQL database for travel packages and bookings, supporting efficient data retrieval and updates.
- Applied modular backend design principles to keep booking, authentication, and admin logic cleanly separated and maintainable.

PROFESSIONAL EXPERIENCE

Market Research Executive — Technowire Media & Technology Pvt. Ltd.

Jun 2023 – Jun 2025

Kolkata, India

- Provided email-based client support and coordinated communication for international client accounts.
- Conducted interviews with international clients to gather requirements and understand business needs.
- Generated qualified leads through targeted outreach, supporting consistent pipeline growth.
- Researched and analyzed companies and current market trends to identify relevant business opportunities.
- Consistently met assigned targets and deadlines through structured planning and time management.

EDUCATION

Master of Computer Applications (MCA)

2025 – 2027 (Currently Pursuing)

Dr. B. C. Roy Engineering College

Bachelor of Computer Applications (BCA)

2023

MAKAUT | Eminent College of Management and Technology | CGPA: 8.01

Higher Secondary (12th)

2020

WBCHSE | Mahata High School | 82.20%

Secondary (10th)

2018

WBBSE | Mahata High School | 54.45%

CERTIFICATIONS

- Web Development Using PHP — Ardent Computech Pvt. Ltd. (Aug 2022) | Credential ID: ARDENT/2022/AD41155
